Graves numbered **1 – 50** are on the west side of the path leading from Church Road to the Vicarage.

**51 – 87** are in the area from the vicarage to the car park in Lynfield Park, broadly speaking on the left hand side of the path leading from the vicarage to the car park gate, but note that the course of the path has varied over the years.

**88 – 271** are to the north of a rough path leading from the car park gate to Church Road.

**272 – 375** are to the east of the path leading from the aforementioned exit opposite Church Road coming back downhill towards the main entrance and the path from Church Road to the vicarage.

**376 – 409** are in the area in the vicinity of the two main entrances to the Church.

**410 – 536** are spread around the area in closer proximity to the church, mainly the north and east, and enclosed by the various paths previously mentioned, from the vicarage to the car park gate, and from Church Road to the main entrance.

The tablets within the Church are listed separately.

This transcription was carried out in 1985 and 1986 by the Bath Branch of Bristol & Avon Family History Society. It later came to light that a previous transcription was deposited at Somerset Record Office, Taunton. Where an entry appears in the appendix it was copied from the earlier transcription and inserted into inscriptions which are now only partially legible.
